

REGULATING NOSES

Depth noses are essential to ensure perfect and constant engraving depth. Gravograph offers a wide variety of noses:

Steel noses

the most commonly used noses (resistant and highly polished for minimum plate scratching)

Teflon noses

for engraving on easily scratched material, such as metal

Swivel noses

for engraving on curved surfaces (steel or teflon)

Prismatic nose

for engraving on jewellery items such as ID bracelets or bangles

Vacuum noses

same as steel nose and can be linked to a swarf extractor

Diamond nose

provides better rigidity & accuracy than a non rotating diamond cutter - mainly used for photo engraving and jewellery.

NB: Gravograph noses are compatible with all Gravograph machines.

Steel nose
0.7 mm diameter
Part No. 20130

Steel nose
1.5 mm diameter
Part No. 20131

Steel nose
2.4 mm diameter
Part No. 21755

Steel nose
2.5 mm diameter
Part No. 20132

Steel nose
4.6 mm diameter
Part No. 21086

Steel nose
16 mm diameter
Part No. 20960

Steel swivel nose
2.5 mm diameter
Part No. 22464*

Teflon swivel nose
3.5 mm diameter
Part No. 22481*

Steel swivel nose
5 mm diameter
Part No. 13058*

Teflon nose
3 mm diameter
Part No. 20133

Fixed
diamond nose
Part No. 22884

Prismatic swivel
nose
Part No. 22885

Vacuum nose
1.5 mm diameter
Part No. 21674

Vacuum nose
3.3 mm diameter
Part No. 21672

Vacuum nose
8 mm diameter
Part No. 21673

Teflon long-reach vacuum
noses
2.5 mm diameter
length: 12, 22, 27 mm
Part No. 28061 / 28062 / 28063

*These noses can be converted into vacuum noses with adaptor ref. 12720
