GravoStyle™ 7

A COMPLETE SOLUTION

GravoStyle™ 7, available in multiple levels of functionality provides features and special functionalities meeting specific market needs for engraving, cutting, marking, ablating and annealing processes for CNC rotary and CO2, YVO4 and fiber laser technologies. Specialized functionalities include:

- Dials, scales, matrix and serialization labeling for the industrial market
- Letter cutting and Braille for the signage market
- Photo engraving, handwritten dedication and decorative plaques thanks to the personalization pack

There are many more such functions for the engraver and endless possibilities for their use. Use the software today and experience the depth and breadth of its capabilities.

GravoStyle™ 7 is designed to work together with your current 3rd-party design software while providing powerful engraving-specific features.

Engraving made easy. GravoStyle™ 7's new features include a Dynamic Helpdesk Assistant (DHA™) with video directly in the software engraving window. In addition, an online Engraving Database of Parameters (EDP™) provides the optimal laser process settings for the full range of Gravograph laser consumables.

Over 220 high resolution fonts are available, optimized for a maximum productivity, and downloadable at: <http://fonts.gravostore.com>

GRAVOSTYLE™ UPDATES

features available IN ALL LEVELS

- Point & Shoot to check engraving position
- Help features & wizards (step by step guided functions)
- Engraving parameters saved with job
- Automatic text composition mode
- Computip feature to recommend the most efficient tools
- Support for Automatic Plate Feeding applications
- Support for cylindrical engraving
- Customisation of working environment
- Post-it function to make notes while you engrave
- Hot keys
- Favourites toolbar
- Object freezing

DiscoveryMax
Productivity package

- Standard text functions
- Stroked engraving fonts included
- Support for True Type fonts
- Zoom, print, grid and guidelines
- Generous symbol library
- User-friendly, colour-coded tool management
- Realistic on-screen previews (WYSIWYRE function)
- Wizards to guide through functions step-by-step
- File import

Personalization pack:

- Photo processing capabilities
- Handwriting stroked engraving fonts
- Additional stroked engraving fonts

- Matrix & variable lists, incl. date & time engraving
- Layer management
- Pdf import & file export
- Alignment & transformation tools
- Geometrical shape function
- Laser driving capabilities with presets
- Multi-language spell check

- Braille production
- Font editor

- Scanning & vectorization
- Point mode & bitmap editing
- Color-coded 2D filling
- Retail font pack (incl. Over 95 fonts)

- Badges, nameplates & doorplates
- Photo touch-ups
- Jewellery & gifts
- Pens
- Pet tags & key rings
- Legend plates
- Valve & push button tags

- Plate serialisation
- Variable list of names
- Small signage
- Funeral plates
- Rubber stamps

- Logo scanning & editing
- Trophy plates & awards
- Plates with text, logos & photos
- Architectural signage with text, logos & photos

Industry

Power, precision & productivity

Unleash your creativity

Take your engraving to a new dimension

- Dials & scales
- Scripting (macro function capabilities)
- Long plate management
- Measurement tools
- Batch import
- External data import

- Barcode and UID – Unique Identification

- Standard nesting (material optimization)
- CAM module (advanced tool management)
- On-screen powerful simulation & rendering
- Advanced braille toolpath management
- Ridging (indent stamps, etc.)
- Shadowing (3D effect)

- 2.5D toolpath for jewellery/metal stamps
- 2.5D Intaglio toolpath for signage

- Surface creation & manipulation tools
- Styl'Art 3D modeling module
- 3D Texturing
- Sculpture tool
- 3D CAM advanced toolpaths
- 3D visualization tools
- Includes all 2.5D functions

- Rating plates
- Control panels
- Part identification & traceability
- Circuit boards
- Linear & 2d bar codes
- Paper & cardboard cutouts with laser

- Advanced photo laserenging
- Model making
- Marquetry
- Routing
- Hot stamping
- Award design & production

- 3D Signage
- Displays
- Embossing/debossing dies
- Molds for food
- Furniture decoration
- Models & prototypes
- Award & recognition
- Commemorative

A FIRST-RATE PARTNER

For over 70 years Gravograph has remained the engraving industry's benchmark. As global leader in engraving and marking technology, we utilise our expertise to develop rotary and laser machines, accessories, software, materials, training and technical services. We provide our customers with complete, purpose-built solutions for retail, institutional and industrial applications... from personalisation, to architectural signage, to industrial part marking.

Gravograph marking solutions offer exceptional quality and durability, exceeding industry product performance standards. Our global quality management charter ensures that both products and services are continually improved, and that all of our team members provide you with the best possible customer experience.

Our success is built on three fundamental values: our customerfocus, ongoing innovation and industry-leading customer service from over 800 employees worldwide.
