

GRAVOGRAPH NEW HERMES

Red Pinwheel

1. The Red Pinwheel is the part of the application that will allow you to setup your work completely and save it as a style to use on other jobs in the future where you want to use the same style. Type all your text on the piece, define your font style and sizes then click on the Red Pinwheel.

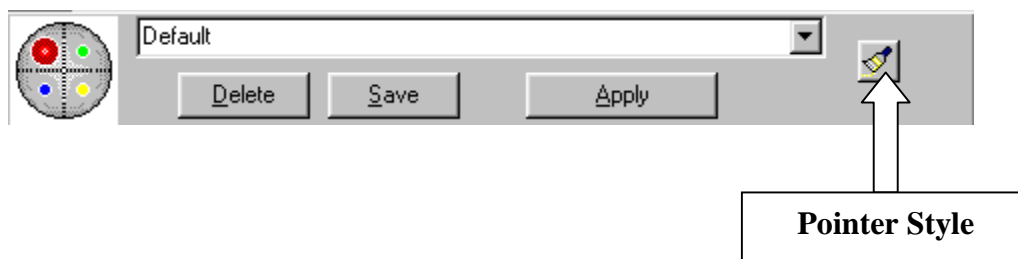

- Click in the window and type a name of the style you want to save for future jobs. Click on the Save button.

- The next time you want to use that saved style go to the Red Pinwheel, click the down arrow on the window and select that style and click the Apply button.

- The best feature of the Red Pinwheel is the Pointer Style button. This button will allow you to capture a font style and size and change lines of text to that style.

4. On your piece of work, select the font style that you want to apply the other lines. Go to the Red Pinwheel and click on the Pointer Style button. You will notice that your cursor changes. Now click and wipe through the lines that you want to change to that style. To exit the Pointer Style just press the space bar.
