What makes Gravograph engraving fonts premium?

Outstanding definition for consistent high quality engraving results on all of our machines.

Single Line Fonts (1L) for engraving precision on even the smallest characters (as little as 0.3 mm tall), unachievable with True Type Fonts.

Multiline fonts (2L to 8L) are designed for large characters engraving. Optimised tool paths are added to completely fill the characters.

Gravostyle™ optimized filling techniques reduce engraving time by an average of 70%.
Gravograph fonts help you to find the right tool

Gravograph fonts are standardized. Thanks to their intelligent design, the engraving tools can be easily selected. You only need to know the font’s number of lines and the font height.

Several application will help you to find the right cutter:
- Computip tool selector assistant (included in Gravostyle™ software)
- Cutters & inserts selection guide cardboard ruler
- Cutters & inserts selection guide online:

http://cutters.gravograph.com/english

Enter the font’s number of lines and the font height.

Computip calculates which cutter is the best.
